PRODUCT DESCRIPTION

DRUG SCREENING TEST STRIPS THE RAPID DRUG-SCREENING TEST

The CLEARTEST Drug-Screening test strips are chromatographic lateral-flow immunoassays for the qualitative detection of diverse drugs in urine samples.

The CLEARTEST Drug-Screening tests provide an initial analytical result. The result of any drug test should be clinically analysed and the results interpreted by a professional, particularly when the initial result gives a positive detection.

Intended for professional invitro-diagnostic purposes only.

The visual reading is so simple!

Immerse the CLEARTEST test-strip into the urine up to the max. marking and wait exactly 5 minutes before removing the strip and reading the result.

Storage: 2 – 30 °C

Contents: 20 singly sealed test strips
